About Us

Our dedicated team is always on hand to take you all the way from manuscript to bookshelf. Every manuscript is given personalised treatment!

ETA Publishing House is an independent mainstream Christian publishing company set up by Christian authors some of whom are also ministers of the Gospel and are committed to fully investing in Inspirational writing talent.

We take pleasure in achieving our vision of publishing a wide variety of work from writers that other publishers often shy away from investing in.

We do not churn out books on mass. We take a personal interest in every book we publish and the message it carries and the impact it is likely to have.

An ETA Book is a work that inspires change and whether fiction or non-fiction will engage the reader whether adult or child.

We offer a wide mix of quality books: novels and stories to engage, insightful memoirs and biographies, up to the minute books on Christian and current affairs, health and beauty, house and garden and so much more. In fact if it's a part of everyday life there is likely to be an ETA Book covering it.

To ensure an efficient effective service to all our authors, both established and new we publish below 100 books a year. We are committed to bringing quality books to their potential readers, even in niche categories. No publisher can guarantee sales and we are no exception, however we strive in partnership with our authors to achieve both critical and sales success for their work.

HOW WE PUBLISH

ETA Publishing House offer expertise in the fields of editorial, production, design, print and distribution, and offer our authors a high level of involvement in the creating process.

Though an independent publishing house we are innovators and unlike many are prepared to take a risk and invest in talented Christian writers, both new and established.

We know that we are only as successful as our titles and strive to retain the writing talent that signs with us.

We don't leave our authors high and dry once their title is on the bookshelf we continue to partner with them to maximise on book sales.

We are first and foremost a traditional mainstream publisher and therefore our standard publishing services are free to our authors. Since 2013 we have offered assisted publishing packages to a small number of best in class self publishing authors, these solutions are competitively priced.

Our authors vary, some new, some have self published and others have previously been published by other mainstream publishers.

We offer competitive royalty payments for titles for our mainstream published authors.

We work in a variety of ways, for a wide range of authors:

Mainstream Publishing Plus

ETA Publishing House is mainstream publishing company with an innovative approach to service provision. We follow traditional publishing processes while making the most of modern innovations.

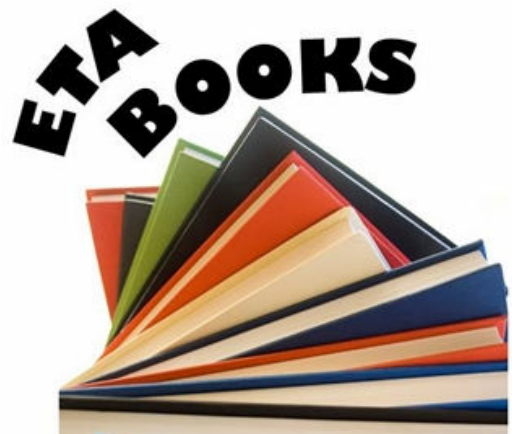

We are less interested in the **mass market potential** of a title, which means that we are just as interested in working with new writing talent as we are with previously published authors with a successful track record. After all they were once unknown too!

Our main focus is on the **specialist Christian** and **Children's Book** markets however other genres are considered. We welcome both fiction and non-fiction titles.

We rely on book sales to keep our company afloat and this means that **we work to get results** for our authors and therefore have **top notch worldwide book distribution** channels in place. ETA Books are available in all formats and from every major high street, mall, or online book shop in the world.

We recognise that **sometimes the message is more important than the profit** and therefore we also offer joint publishing and assisted publishing programmes for selected titles.

Our commitment to investment in life changing writing talent, even when the work does not appeal to a mass market; make us unique in the book publishing arena.

2. Joint Publishing Programme (with author contributing towards costs)

This is the ideal option for Authors whose work does not appeal to a mass market but want their message to be read! This is a full publishing package, which gives the author creative input and a high level of involvement.

Authors whose work is not considered saleable end up in Publishers slush piles at worst or under a pile of rejection letters at best! Our Joint Publishing Programmes is just the way to avoid either scenario and includes all the services offered by our mainstream service. The only difference is that books that would never see the light of day make it into the hands of readers!

Joint Publishing offers a higher royalty rate because the Author has shared in the financial investment: in general terms, the author will receive upwards of 15% of the wholesale price of every book sold compared to the standard 7-10% from mainstream publishing deals. The major benefit being that you avoid the slush pile where so many promising authors end up!

For more details of our Joint Publishing Programme and Prices please email info@etapublishing.com with Joint Publishing Programme in the subject line

3. Assisted Publishing Programme (with author covering all costs)

This is the ideal option for Authors who want to retain all rights to their literary works. Whilst having the added benefit of having printed versions of their work available on bookstore shelves. The publishing and distribution of books is still very traditional and slow changing. This makes getting your book onto the shelves of major and high street book sellers the biggest challenge for self published authors. They buy through recognised channels not available to self published authors. An assisted publishing programme with ETA Publishing opens doors to you that would otherwise be locked.

Your book will not only be professional designed, it will not be rejected by traditional trade book buyers and book sellers. You will enjoy the best of all worlds including full artistic control, the majority of the proceeds of all book sales after title set up, distribution set up, legal depository, trade discounts, printing and shipping costs. Your book will benefit from full best in class International Distribution and worldwide availability.

On the Assisted Publishing Programme your work will never get stuck on someone's desk, lost at the bottom of a slush pile or resulting in a rejection letter through the mailbox. You can get your message out there regardless of how saleable your book is considered. You are covering all costs, investing in yourself and assuming any risk associated with your published work. You decide and dictate the destiny of your literary work.

Avoid the author's biggest nightmare of rejection and remove every obstacle to your book getting into the hands of your readership!

Assisted Publishing offers the highest royalty rate because the Author has already covered the production costs: in general terms, the author will receive in the region of between 40-70% of the wholesale price of every book sold compared to the standard 7-10% from mainstream publishing deals. The major benefit being that your book will be available through major and independent book sellers worldwide and never find its way onto the slush pile where so many promising authors end up! In short a win-win solution!

For more details of our Assisted Publishing Programme and prices please email info@etapublishing.com with Assisted Publishing Programme in the subject line

4. Production only (with author covering all costs)

This service includes the full editorial, production and interior design of your book to provide you with finished copies for your own distribution and use. With a production only service the author covers all cost and expenses and retains all the proceeds of any book sales.

For more details of our Production only service and prices please email info@etapublishing.com with Production only in the subject line

4. Sponsored books for companies and charities

We provide the publishing expertise for ministry and non for profit company-backed books according to your needs. For more details of our Sponsored Books Programme please email info@etapublishing.com with Sponsored Book Programme in the subject line

HOW TO SUBMIT

Step One: Publishing Enquiry

Initially please send us, by email:

- A brief synopsis of your book.
- A covering letter with the title of your book, details about yourself, including your full postal address, telephone and email contacts, and information on any material previously published by you.

Email: info@etapublishing.com

It would be very helpful if you would tell us how you were referred to ETA Publishing House, e.g. recommendation, a national newspaper, Writer's Handbook, Publishers Association, an internet search engine, social network, website, etc.

Step Two: Submitting a Proposal

We prefer to receive online submissions please visit the following web page to get started
